

AYLESBURY TOWN COUNCIL

Specifications for memorials

Only memorials that conform to an approved specification are allowed in the cemetery. These specifications can be obtained from Aylesbury Town Council, from our Cemetery Regulations, and also from those funeral directors and monumental masons who are registered with our Memorial Masons Registration Scheme. Only those registered to our scheme are permitted to build, erect or refurbish memorials within Tring Road Cemetery.

Appropriate authority must be obtained from the cemetery office before a memorial can be fixed. It is important to note that only the grave owner may sign the application and that they will be held responsible for the future maintenance and safety of that memorial.

Approved stonemasons

As part of Aylesbury Town Council's commitment to maintaining standards within our Cemetery, we ensure that all stonemasons working within our Cemetery fix memorials according to the NAMM Code of Working Practice 2018 and/or the BRAMM Blue Book 2018, and conforming to BS8415-2018 (British Standard for the installation of memorials), or as subsequently updated or revised.

We also ensure that they have Public Liability Insurance and issue Guarantees for their workmanship.

Please ensure that your mason gives you a guarantee or certificate of compliance for their workmanship.

Only the stonemasons/funeral directors listed below are able to erect, install and restore memorials/headstones in the Council's Tring Road Cemetery.
